I don't understand why people think line work is hard. I think people have heard too much from their parents and grandparents that you have to work hard to earn money. But it's not true: people who work hard earn nothing and are poor.

Question. Wouldn't there be any copywrite problems if you get it on tiktok without owners permission?

Hello, as I said, I'd advise you to ask permission. then you're not going to take videos of one and the same person.

Could I engage in this activity if I'm under 18? It seems like a promising source of passive income.

All you have to do is ask your parents for permission, and you can transfer the money to your mother's or father's account and use it. It's up to you to talk to them. They may well put the money in your account to save you money.
